I am a Full Stack JavaScript Developer with 2 years of experience in designing and developing web applications and also skilled in developing and maintaining RESTful APIs. Proficient in integrating applications with backend systems and writing clean, efficient, and maintainable code.

## EDUCATION

### GGSIU

*Bachelor in Computer Science Engineering*

Delhi, INDIA

Aug. 2018 – May 2021

## EXPERIENCE

### Software Developer

*Akal Information Systems*

- Developed a REST API using Node.js and PostgreSQL to store data from Job Portal System
- Developed a full-stack web application using Angular, React, PostgreSQL and Azure.
- Explored ways to visualize GitHub collaboration for better data configuration.

August 2021 – Present

*New Delhi, India*

### FrontEnd Game Designer

*Believable*

- Develop Game areas in Unity.
- Developed common board games with common functionality.

March 2021 – April 2021

*New Delhi, India*

### UI/UX Intern

*Mumbai First*

- Communicate with managers to create design for posters for web and videos.
- Assist with Website design Mainly header and footers.
- Maintain upkeep of Videos and thumbnails for YouTube.

August 2020 – Nov. 2020

*New Delhi, India*

## PROJECTS

### Driver Awareness System | Python, ML

- Developed a Python Code to scan Face of Driver and find out if driver is asleep..
- Implemented Keras and CNN Methodology to read face postures and determine if driver is asleep as well as if the car is in Motion.

September 2020

### Handwriting to Text Conversion | Python, ML

- Developed a Python Code to scan Handwriting and convert it into Text.
- Implemented Keras and CNN Methodology for Conversion of Scanned Material

September 2019

### Smart Plant | Embedded C, Arduino, Humidity detector, Motor

- Developed a Chipset that can read the Moisture of soil.
- If Moisture is not at adequate level for a certain time. then supply it with water using motor and a prefilled water storage.

March 2019

## Certification

**Arduino (Embedded C, 8085)**

AEDIFICO

**ML Using Python**

AEDIFICO

**Android using Kotlin**

AEDIFICO

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, PHP, C/C++, SQL (Postgres), HTML/CSS,

**Frameworks:** Angular, React, Node.js, WordPress, Material-UI, RestAPI, Bootstrap, CI

**Developer Tools:** Git, Docker, Azure, VS Code, Visual Studio
